Shipping Progress Bar GraphQl User Guide

End Point

- {{base_url}}/graphql

```
{
        getshippingprogressbarinfo(quoteId: "quote_id") {
                achieved_message
                in_progress_message
                initial_message
        }
}
```

quote_id - quote_id is required in the endpoint.

Responce

- When cart is empty then this response is come.

```
{
        "data": {
                "getshippingprogressbarinfo": {
                        "achieved_message": null,
                        "in_progress_message": null,
                        "initial_message": "Great news! You're just <b
                        style='color:yellow';>$50</b> away from qualifying for free shipping!"
                }
        }
}
```
